1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This is the 1st edition of our July 2003 issue of our free semi-monthly newsletter for Computer IT Education, Training, & Tutorial Resources providing you with the latest Free online IT Training Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of Intelinfo.com costs \$10 for two months, for more information please see below 'Become a Member of Intelinfo.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

In this issue we describe and link to a total of 37 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do.

***Current News ***

This July #1 issue of our newsletter offers you links to many online IT books. Also, if your looking for no cost Cisco training, check out the Question of the Month near the end of this newsletter.

Please remember that our current newsletter issues are always available in HTML format at these two URLs:

This Issue, July #1: http://www.intelinfo.com/current_news.html

Last issue, June #2: http://www.intelinfo.com/current_news-2.html

I wish you the best with your computer studies and learning.

Warm Regards,
Scott Turton

Deploying Oracle9 i on Red Hat Enterprise Linux AS:

http://www.redhat.com/...Deploying_Oracle9i_on_Red_Hat_Linux_Enterprise_Linux_AS.pdf

This 22 page document gives you detailed information on the status of Red Hat Enterprise Linux AS as a platform for Oracle database technology. Price/performance information is provided and a tutorial is given outlining the required steps to install these technologies.

Two Linux Tutorials from IBM:

Inside the Linux Kernel Debugger:

<http://www-106.ibm.com/developerworks/linux/library/l-kdebug/>

Install and set up the kernel debugger (KDB) to trace Linux kernel execution and examine memory and data structures. You'll learn how to use the features provided by KDB and how to install and set up KDB on a Linux machine. You'll also get acquainted with the commands and the setup and display options available to you in KDB.

Addressing Security Issues in Linux:

<http://www-106.ibm.com/developerworks/linux/library/l-sec/>

An overview and resource guide - focuses on security issues as they relate to the individual user (home or small office) and to a network administrator responsible for user workstations. His main intent is to introduce the new user or administrator to the wide array of security issues and solutions that exist; however, even those experienced with security issues may find something new here.

6) New Computer & IT Training & Tutorial Link & Resource Sites:

These web sites will be added to our IT Links and Resources page at <http://www.intelinfo.com/cat6.html>

Information Technology Portal:

<http://www.peterindia.net/>

This is a very comprehensive IT portal website covering just about everything you can ask for.

Programming Tutorials:

http://www.cs.utk.edu/~shi/link_prog.htm

Tutorial links to many topics, including C, C++, CGI, CORBA, Debugging, DHTML, Emacs, Fortran, HTML, IPC, Java, Make, MPI, OpenGL, Parallel, Pascal, Perl, PHP, PVM, Python, RPC, Serial Programming, Shells, Sockets, SQL, Tcl/Tk, TCP/IP, Threads, Unix, VRML, and X11.

7) I.T. Sites and Free Downloads Worth Mentioning:

WinMerge:

<http://winmerge.sourceforge.net/>

This free Windows tool compares two files and identifies the differences. The differences can then be merged from one file into the other. This program works great for text files, reports or source code. (514KB)

2xExplorer:

<http://netez.com/2xExplorer/intro.html>

This is an easy to use yet very potent and extremely efficient alternative to the standard windows Explorer. It combines the user-friendliness of the latter with the increased efficiency and advanced features of good-old dual-pane file managers like Norton Commander.

8) Question of the Month about Technical Training:

Intelinfo.com Member Site FAQ Answers:

1. Over half of the web sites and pages in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.
2. If you use a credit card when joining, it will be billed by Verotel. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check.
3. You can also use PayPal to sign-up as a member of Intelinfo.com, just use this link: http://www.intelinfo.com/links/become_a_member.html. If you register to pay \$10.00 (for 2 months access) via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.
4. If your country is not listed in the drop-down list, please use 2checkout.com to register as an intelinfo.com site member using this link: http://www.intelinfo.com/links/intelinfo_member.html. I will then send you an email asking what you would like to use for your user name and password.
5. If you are looking for training and tutorials covering popular software such as Microsoft Office, Flash, Photoshop, Dreamweaver, Web Development, Windows and Computer Hardware, please see our sister site, <http://www.EducationOnlineForComputers.com>

The total price to join our member's site is only \$10 total for 2 months, \$18.50 for 4 months, or \$25.50 for 6 months. The funds generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up: <http://www.intelinfo.com/sign-up/index.html>. You can email Scott Turton with questions.
